## PROJECTS

### Movie Search Web Application (02/2022 - Present)

- Web App: [geanu-moviesearch.netlify.app](http://geanu-moviesearch.netlify.app)
- Source Code: [github.com/geanu02/MovieSearch](https://github.com/geanu02/MovieSearch)
- Built the frontend UI of a movie database search engine using React that enables searching for titles with synopsis and release date information
- API from The Movie DB was utilized to extract movie titles and information
- Applied modern web standards in Single-Page Application (SPA) using React.js functional components, built-in/custom hooks and JavaScript ES6+ for fetch calls

### Streaming Service Web Application (09/2021 - Present)

- Web App: <http://geanu-netflix.netlify.com>
- Source Code: [https://github.com/geanu02/Netflix\\_Clone](https://github.com/geanu02/Netflix_Clone)
- Built the frontend UI of Netflix utilizing React, StyledComponents and Firebase Auth that enable user authentication, search film and series titles and play media
- Applied modern web standards in Responsive Design in developing a Single-Page Application (SPA) using JavaScript ES6+ and React.js functional compound components, router and built-in/custom hooks

### Photo Collection Web Application (10/2021 - Present)

- Web App: <http://geanu-birdseyeview.netlify.app>
- Source: <https://github.com/geanu02/BirdsEyeView>
- Built the frontend prototype of a photo gallery utilizing React, StyledComponents and Heroku functions that showcase photos, enabling favorites and carts, and online ordering
- Deployed custom API using Heroku functions to share my personal collection of stunning photos from hikes and memorable walks
- Applied Responsive Design practices, React custom hooks and router and deployed to Netlify

## WORK EXPERIENCE

### Computer Systems Analyst

SAE Engineering, Inc.

2012 - 2020 *Santa Clara, California*

#### Achievements/Tasks

- Strategized with multiple department managers including Operations, Purchasing, Sales and Accounting
- Managed the company transition to Job Boss ERP, report writing, data migration, systems integration and training
- Conducted analysis and reported ISO-mandated production and supplier performance metrics
- Implemented business processes for management and production aligned to business goals (job tracking visibility, quality inspection database, centralized ISO documentation, device serialization, automation scripts for data entry and client file portal)

Contact: Michael Mijares - +1 925 481 8742

## EDUCATION

### Information Systems, Bachelor of Science

De La Salle - College of Saint Benilde

2007 - 2010 *Manila, Philippines*

## TECHNICAL STACK

### Frontend

React, JavaScript ES6+, HTML5, CSS3, StyledComponents

### Backend

REST API, HTTP Methods, Node.js, SQL, Python, Django, C#

### Tools & Applications

Git, Github, Yarn, NPM, Bash, Jest, JIRA, Trello, VS Code, Adobe Photoshop

### Principles & Technology

Responsive Design, React Hooks, OOP, SDLC, AWS Architecture

## CERTIFICATES

### Frontend Web Development (2021)

*Scrimba*

### AWS Solutions Architect Associate (2021)

*Amazon Web Services*

### React Native Development (2021)

*Zero To Mastery Academy*

### Data Engineer (2020)

*Dataquest.io*

### Data Analysis in Python (2020)

*Dataquest.io*

## ACHIEVEMENTS

### Software Design Finalist, 2010 Microsoft Imagine Cup (06/2010 - 07/2010)

Built a web application (ASP.NET, C# and jQuery) that warns, tracks and informs users to prepare for a natural disaster heading to their area. Represented the Philippines in the Software Design Category in the Microsoft Imagine Cup held in Warsaw, Poland.

## TEACHING EXPERIENCE

### .NET Fundamentals Training

Universiti Malaysia Terengganu

06/2011 - 07/2011

*Kuala Terengganu, Malaysia*

#### Tasks/Achievements

- 96% of students passed the Microsoft .NET Certification

## LANGUAGES

English  
*Full Professional Proficiency*

Filipino  
*Native or Bilingual Proficiency*

Dutch  
*Elementary Proficiency*
