ZTM Academy

Data Engineer 🔗
Dataquest

Data Analyst in Python 🔗
Dataquest

PROFESSIONAL EXPERIENCE

Computer Systems Analyst, *SAE Engineering, Inc.*   2012 - 2020 | Santa Clara, CA
- Initiated planning and strategy for transition and migration of legacy processes into the ERP system which increased efficiency and data reliability for Operations, Purchasing, Sales and Accounting departments
- Managed the legacy database to Job Boss ERP, report writing, data migration, systems integration and training that made the ease of data access to generate modular reports
- Implemented business processes for management and production, aligned to business goals: job tracking visibility, quality inspection database, centralized ISO documentation, goods serialization, data entry automation and client file portal that lead to more error traceability, one-click search and qualification in ISO compliance

EDUCATION

Information Systems, Bachelor of Science,   2007 - 2010 | Manila, Philippines
De La Salle - College of Saint Benilde 🔗
